## PROFILE

I am a highly dedicated and responsible IT student with a 'roll up your sleeves' mentality when it comes to taking on challenges and a strong commitment to passionate learning. I have a strong desire to continue growing in the field of finance, and I am actively seeking opportunities to expand my knowledge.

After arriving in Canada, I encountered a spinal injury that influenced my decision to pursue a different path, transitioning from my initial passion in the health science department to accepting an alternative offer in the IT field. My passion has always centered around helping people, and I chose IT as a means to create a positive impact on individuals' lives within the virtual realm, aiming to address and solve challenges they face.

Backed by a track record of academic excellence, I am capable of maintaining superior attention to detail while organizing tasks. Moreover, my experiences in customer service roles, including personal training and as a barista, demonstrate my ability to thrive within both fast-paced environments and intimate settings.
